

ENERGY EFFICIENCY

Quiet DC motor provides energy-efficient technology which is paving the way towards a greener tomorrow

Combined with weather sensor to adjust automatically which providing great sun protection in summer and avoid heat loss in the winter

SILENT & SMOOTH MOVEMENT

Smooth and silent operation for up/down movement with our newest patented brake system

Come with the soft start-stop to protect the roller shutter from damage.

WATERPROOF PLUG-IN CABLE

Patented motor head design with waterproof Plug-in cable makes installation/maintenance quick and easy

378.8MM

Obstacle detection

- Stops the shutter from coming down automatically when obstacles are detected to protect belongings
- Available for adjustment of sensitivity level
- Available for activated or dis-activated obstacle detection

Anti-freezing Protection

- Stops the motor if frost or ice freezes the shutter in place

Recalibrate End-stop positions

- Automatically recalibrate the end-stop positions every 100 cycles to remain the best end stops all the time

Flexible limit setting mode

- Setting limits in automatically mode, in semi- automatically mode or setting limits in manual mode.
